

Visit to the monumental complex

The peace of mind, the purity of language, the tranquility of the pilgrimage, and the knowledge are all associated with praying. There is great truth in this knowledge of the wise. The wisdom of passing the souls of the past, remembering their knowledge is great. Visiting the cemetery that leads to the heart allows you to feel responsible. On December 7, 2018, the students of group №106 of the specialty of Ecology Safety in Water Management in Faculty of Organization and Management of Water Resources, visited the scientific and educational complex named after Islam Karimov, the First President of the Republic of Uzbekistan. During the visit, the students got acquainted with the monument complex at the White Palace and exhibits at the museum.
