

We fight for environmental sustainability

On October 18, 2019 at 15:00, a round table discussion was organized for students of the faculty “Organization and Management of Water Management” in the room of spirituality and enlightenment at the for the students of the faculty “Organization and Management of Water Management” with the participation of Kurbonov Abdurahim Eshonkulovich, deputy of the Legislative Chamber of the Oliy Majlis, Azizov Shodiyor Valizkhonovich - the head of the group working with regional departments and activists of the Ecological movement of Uzbekistan, Sevara Tulkunovna Fayzieva - the chairman of the Yunusabad district party organization Ecological Party of Uzbekistan.

The event was opened by R. Khakimov, Dean of the faculty “Organization and Management of Water Management”, who introduced the participants to the event. An important achievement of the educational system of our country is environmental education. This year, one of the legal foundations of environmental education was developed - the Concept of Environmental education. It should be noted that the adoption of this act is of great importance in the implementation of such an important event as ensuring the environmental safety of the population. During the event, the relevance of the environmental education system was noted, the need to attract the attention of all segments of the population, especially youth, to such problems as updating environmental education, protecting nature, ecosystems, instability of the environment and its prevention, raising the level of ecological culture of the population. Students were told about the goals and objectives of the Ecological party of Uzbekistan. The round table was held in the form of dialogue, lively conversation.
